

# LAKEWOOD *Electric* LTD.

**ELECTRICAL and INSTRUMENTATION CONTRACTORS**

**Customer focused and results driven**

-  **Industrial Installations**
-  **Instrumentation Installations and Maintenance**
-  **Commercial Installations**
-  **Fiber Optic, Communication & Data Cabling Systems**
-  **Maintenance Services**

We are customer focused and results driven. Our company encompasses the full scope of electrical power and control installations, project design and turn-key installations with an emphasis on safety and quality in the following areas:

<b>Pulp and Paper Industry</b>	<b>Petroleum Industry</b>
<b>Mining Industry</b>	<b>High Voltage and Power</b>
<b>Chemical Industry</b>	<b>Distribution</b>
<b>Commercial Services</b>	<b>Communications and Data</b>
<b>Sawmill Industry</b>	

We have successfully completed projects throughout British Columbia, Alberta and the Northwest Territories valued from \$5,000 to \$10 million. We have also completed projects in Labrador and the Yukon. Since 1972, we have provided clients with excellent quality work combined with safe installations and experienced project supervision.

2007 S. Ogilvie Street, Prince George, BC V2N 1X2

Lakewood Electric Ltd. is an established company eager to take on new challenges and is committed to providing excellent quality work and experienced project supervision.

## Industrial Installations

Lakewood Electric Ltd. has experienced leaders within the electrical industry who supervise each project to completion. Our electricians are trained to execute routine and emergency maintenance of all industrial electrical power systems and equipment. We specialize in new construction, capital expansions, plant relocations, major shutdowns and maintenance services for all of our clients.

## Commercial Installations

Lakewood Electric Ltd. performs electrical contracting services for all types of commercial businesses, small and large, including new construction, renovations, and maintenance services. We are equipped to handle all aspects of electrical installations in any commercial establishment.

## Fiber Optic, Communication & Data Cabling Systems

Lakewood Electric Ltd. provides the connection for all communications and data networking system needs. We work with knowledgeable partners trained in all data related areas as well as building and maintaining copper and fibre optic networks for voice, data and video systems. We can provide all your Fusion Splicing needs.

**Panduit ONE™ Partners** – system integrators, installers, contractors, architects, consultants, engineers and distributors – are qualified to help you achieve your objectives and realize predictable and measurable results.

## Instrumentation

The Lakewood Electric instrumentation team provides customized instrumentation installations, and service. Our instrumentation team takes pride in their ability to meet project schedules and exceed expectations of our customers. In addition to installations, we can provide calibration, commissioning, preventive maintenance and start up assistance for any size and type of project.

## Maintenance & Service

We are a proven leader in providing long term, cost-effective maintenance and service to our commercial and industrial clients.

Our highly experienced workforce consists of extensively trained and experienced journeymen who assure excellence in safety, control, quality and accountability. Whether your needs revolve around full time or periodic service or maintenance, we can meet all of your service and maintenance requirements.

Our services include:  
24 Hour On Call Services  
Troubleshooting Wiring  
Preventive Maintenance Programs  
Predictive Maintenance  
Shutdown Planning & Coordination  
Facility Maintenance

**Lakewood Electric Repair Facility - Fisher Certified**
